San Francisco Beautiful members and supporters are invited to a forum to discuss the issues surrounding Proposition K. SFB worked to pass Prop. G, the "No New Billboards" initiative, in 2002. We support Prop. K because it would give voters an opportunity to speak out against the increase of rampant commercial advertising on public property. Please join SFB staff and board members for a lively discussion.

**PROPOSITION K  
DECLARATION OF POLICY**

The voters declare that the proliferation of advertising in the public right-of-way contributes to urban blight and visual clutter, as well as the commercialization of public spaces within the City. It is the policy of the voters of San Francisco as follows:

1. There shall be no increase in the number of general advertising signs on street furniture on the public right-of-way, including, but not limited to, transit shelters, kiosks, benches and newspaper racks, over the number authorized by City law and City contracts as of July 1, 2007.
2. There shall be no increase in the number of general advertising signs visible to the public on the exterior of City-owned buildings over the number in place as of December 1, 2007.
